

Early Years Offer

1. How does the setting know if children need extra help and what should I do if I think my child may have special educational needs?

At Fleetville Playgroup you can speak to any of our staff if you have any concerns about your child. However, Debbie Stallan and Elise Mould are our dedicated coordinators for special educational needs and disabilities. They both have regard to the Sen code of practice 2014.

If your child has an identified special need before joining our setting, Debbie or Elise will work with you to ensure that everything is in place (e.g. special equipment, staff training, classroom organisation etc) before your child joins us.

Your child's key worker will work with Debbie/Elise to continually monitor and review your child's development and progress in the setting through the Early Years Foundation Stage (EFYS) framework.

We work very closely with other professionals such as health visitors, speech and language therapists, educational psychologists and other healthcare professionals to ensure that your child is given appropriate support and that we provide the very best care and educational opportunities for your child.

2. How will the setting's staff support my child?

We have two members of staff, Debbie Stallan and Elise Mould, who are specialist SENCOs, and have a wide range of experience helping children with different needs.

Your child's key person will develop a strong bond with your child and we will work with you to ensure your child is happy and settled at pre-school.

Your SENCO will work to ensure that you are closely involved at all stages and will also liaise with a wide range of professionals. Including Julie Carroll from our local authority who helps us identify your child's additional needs.

3. How will I know how my child is doing?

You will be given feedback on your child's progress weekly with home/playgroup book. You are always welcome to discuss your child's progress informally at the setting or by telephone or email. We will also review progress with you via their learning journals and through regular meetings.

There is no better way than an informal chat at the end of a session, so please always speak to us about any concerns.

The regularity of formal meetings between staff and parents will depend on your child's level of need.

4. How will the learning and development provision be matched to my child's needs?

Through the EYFS we will observe and assess your child and then plan their learning and development provision around our observations. This is highlighted in their next steps in their journals.

We will follow advice from other professionals, **including our local IDO (Inclusion Development Officer, Julie Carroll)** on how to support your child's particular needs and the SENCo will ensure that training is accessed for staff, where possible, to support your child's learning.

5. What support will there be for my child's overall wellbeing?

We will involve other professionals (e.g. health visitors) to ensure that we support your child in all areas of their development. We will support you and your child with toilet training, and any issues regarding eating, sleeping etc. The pre-school is fully equipped with changing table/mats/potties etc.

There is a strong emphasis on providing a caring environment, and this is supported through various strategies such as the Key worker system and a timetable which is varied allowing your child to enjoy the morning.

If your child has any specific medical needs our staff will undergo any training – e.g. epi pen training, replacing breathing tubes etc., and we will administer any medication prescribed by a hospital paediatrician or GP.

Deleted: -

We have a behaviour management policy which outlines the procedures used at the pre-school, however, if specialist help is required to manage behaviour we can request the support of the inclusion development officer employed by the local authority.

All staff have a positive approach to all children's individual learning and development and are sensitive to their needs. Unwanted behaviour and the testing of boundaries is often part of growing up, and we will work closely with you to put strategies in place to support and enhance your child's positive behaviours.

6. What specialist services and expertise are available at or accessed by the setting?

Debbie and Elise have many years' experience in the role and have worked with children with a wide range of needs. Both staff have up to date training and have access to information and specialist help if needed.

We have very good links with our local children's centre and we work with a wide range of agencies such as advisory teachers, autism advisory teachers, occupational therapists, physiotherapists, educational psychologists, speech and language therapists, health visitors, GPs etc.

We also have a good relationship with all the local feeder schools, especially Fleetville Nursery and Primary School and this will make the process of moving to a new setting much easier for your child.

7. What training and/or experience do the staff, supporting children with SEND, have?

All staff have a lot of experience with working with children with special needs.

We have staff trained in Makaton sign language and we have the database of Makaton signs and symbols held at the pre-school so we can look up words to support individual children.

Our SENCo's have many years' experience supporting children with a wide range of needs and disabilities and have access to information and professional advice.

8. How will my child be included in activities outside the setting?

Your child will benefit from all activities outside the setting and full Risk assessments will be carried out.

We will discuss your child's needs with you to ensure they can be included. You will not be required to accompany children on any outside activities. However, if you are unhappy about your child joining in a trip, visit or event without your presence you would be welcome to act as a parent helper on the outing.

9. How will I be involved in discussions about and planning for my child's learning and development?

Your child's keyworker will be available to discuss your child's needs however it may be necessary to arrange a mutually convenient time for a meeting. Team Around the Family meetings can be carried out regularly.

If outside professionals come in to see your child we try to organise a meeting at the end of that visit for a brief discussion. If this is not possible any reports are always copied and given to you.

Parental consent is always obtained before we refer to any outside agencies

10. How accessible is the building / environment?

The playgroup environment is very accessible and meets the current disability regulations.

There are no stairs in our building and we have ramp access. Our toys and equipment is very varied for a child's individual needs.

Our garden is all on one level and we have grassed and concrete areas including a garden.

We have a disabled toilet with wheelchair access, which is shared by the Community Centre

11. How will the setting prepare and support my child with transitions between home, settings and school?

Before starting playgroup, we will carry out a home visit so our staff can meet your child in their home environment. If necessary, a health care plan is completed and signed off at this meeting. Taster sessions will be organised for you and your child to attend prior to their start date.

If your child receives care from any other setting (e.g. another nursery or a childminder) we will work with them by sharing learning journals on a termly basis.

When it is time for your child to leave us to start nursery school or school we will contact the new setting and invite them to visit your child at pre-school. During this visit the teacher or key person from the school will meet and play with your child and discuss their development and progress. We have strong links with Fleetville Nursery across from the setting

12. How will the setting's resources be used to support children's special educational needs?

All equipment and toys are moveable and can be made accessible, they are age and stage appropriate. We will seek to borrow specific equipment needed for specific needs.

The playgroup has a high staff/child ratio, so your child will receive plenty of adult support. We are also a very inclusive setting and have a range of resources/strategies in place to support children with a range of needs e.g. we have a visual timetable (using pictures and symbols) this may be used with speech and language delay or if English is a second language. We have a number of sensory resources.

13. Who can I contact for further information about the early years offer in the setting?

Ailsa Hulme Manager, Fleetville Community Playgroup [Tel:07854400569](tel:07854400569)
info@fleetvillecommunityplaygroup.org.uk
